Booster unit Aquacell A 2-70

Booster units from the Aquacell range contain a non-self-priming, staged centrifugal pump. The fully automatic booster units are compact, have a low noise level and are supplied wired ready for connection and with the pipes in place. All units come with a fully automatic pump control.

Details

Flow rate Q in m³/h: max. 3,30
Motor performance in kW (P2): 0,55
Total head H in m WS: max. 50

Materials used

Pump casing: Edelstahl 1.4301

Field of application

> Drinking water supply
> Industrial water supply
> Process water supply
> Air conditioning units
> Irrigation

Design

With a constant speed, non-self-priming, staged centrifugal pump. Clear, moderately aggressive fluids, which don’t chemically and mechanically attack the pump materials.

Miscellaneous

> Special voltage
> Special elastomers
> Special mechanical seals
> Higher fluid temperature
