Metering pump M1

These self-priming pumps have been specially developed with corrosion-resistant materials for continuous analysis of pool water. The pumps are very easy to maintain because of their self-priming capacity and monoblock type. Special union with a glue socket is included in delivery.

Details

Flow rate Q in m³/h: 25
Motor performance in kW (P2): 0,18
Strainer basket in mm: approx. 2.8 x 2.8
Strainer capacity in l: ca. 0,5, ca. 0,5
Total head H in m WS: 8, 8

Field of application

Metering pumps for continuous analysis of pool water in public swimming pools.

Design

Monoblock pump with integrated strainer. Bellow-type mechanical seal mounted on a plastic impeller hub. Electrical separation.
