

# BADU® Wall nozzle, 5 nozzles, 19 mm each, version III

These wall and floor nozzles provide additional vitality to your pool and spa repertoire. Enjoy a stimulating massage and relieve muscle tension with the powerful and therapeutic benefits of the underwater jet produced by the single-hole nozzle, or increase your circulation with the stimulating stream of the jets created by the five-hole nozzle. Day after day you will find new ways to satisfy your needs and energise your body.

The nozzles are an excellent addition to the powerful BADUJET super-sport and can be used separately or together.
