

BADU[®] Powerstar

Circulation/water treatment in aquaculture for large volumes of water at low head.

Details

Flow rate Q in m³/h: 250

Materials used

Impeller: PPE GF 30

Mechanical seal: carbon/SiC/EPDM

Pump casing: PP GF 30

Field of application

Water treatment in fish farming and aquaculture.

Design

The BADU Powerstar propeller pump is a single stage, non-self-priming elbow pump with an axial impeller. The pump can be installed vertically and horizontally. Bellow-type mechanical seal mounted on a plastic shaft protector sleeve. Motor/pump shaft has no contact with the water in the circuit, providing complete electrical separation.
