Booster unit Aquacell AE 6-70

Booster units from the Aquacell range contain a non-self-priming, staged centrifugal pump. The fully automatic booster units are compact, have a low noise level and are supplied wired ready for connection and with the pipes in place. All units come with a fully automatic pump control. The booster unit is fitted with variable speed adjustment.

Details

Flow rate Q in m³/h: max. 9
Motor performance in kW (P2): 1,50
Total head H in m WS: max. 66

Materials used

Pump casing: Edelstahl 1.4301

Field of application

> Drinking water supply
> Industrial water supply
> Process water supply
> Air conditioning units

> Irrigation

Design

Aquacell AE:
With a non-self-priming, staged centrifugal pump and speed regulation (frequency converter).
Clear, moderately aggressive fluids, which don’t chemically and mechanically attack the pump materials.
