

Booster unit Multicell SFE 2/10-70, version D

Booster units from the Multicell range are equipped with between two and six pumps, according to requirements. The fully automatic booster units are compact, have a low noise level and are supplied wired ready for connection and with the pipes in place. All units come with a fully automatic pump control. The booster unit is fitted with variable speed adjustment.

Details

Flow rate Q in m³/h: max. 26,40

Motor performance in kW (P2): 3,00

Total head H in m WS: max. 79

Materials used

Pump casing: Edelstahl 1.4301

Field of application

- > Drinking water supply
- > Industrial water supply
- > Process water supply
- > Air conditioning units
- > Irrigation

Design

Multicell SFE2: With 2 non-self-priming multistage centrifugal pumps and speed regulation (frequency converter).

Clear, moderately aggressive fluids, which don't chemically and mechanically attack the pump materials.
