Horizontal centrifugal pump 2VGX 12/20

Centrifugal pumps in the VGX/2 VGX range are single and multistage pumps in a monoblock design. The non-self-priming centrifugal pumps are charaterised by a compact construction and durability. Wetted parts are made from stainless steel 1.4301.

Details

Connection: 230V, 400V
Flow rate Q in m³/h: max. 9
Motor performance in kW (P2): 1,50
Total head H in m WS: max. 55

Field of application

> Water treatment
> Water supply
> Cooling units
> Engineering
> Pressure boosting

Design

Monoblock pump with surface-cooled motor, extended motor shaft to accommodate the impellers, shaft seal in the form of a mechanical seal, configured for constant operation.

Miscellaneous

> Special voltages
> Special elastomers
> Special mechanical seals
> Higher fluid temperatures
