Centrifugal pump MTX 3-70

Monoblock pump with surface-cooled motor, extended motor shaft to accommodate the impellers, shaft seal in the form of a mechanical seal, configured for constant operation.

Details

Connection: 230V, 400V
Flow rate Q in m³/h: max. 4,80
Motor performance in kW (P2): 1,30
Total head H in m WS: 79

Field of application

> Water treatment
> Water supply
> Cooling units
> Engineering
> Pressure boosting

Miscellaneous

> Special voltages
> Special elastomers
> Special mechanical seals
> Higher fluid temperatures
