

Centrifugal pump MTX 5-80

Monoblock pump with surface-cooled motor, extended motor shaft to accommodate the impellers, shaft seal in the form of a mechanical seal, configured for constant operation.

Details

Connection: 230V, 400V
Total head H in m WS: 92

Field of application

- > Water treatment
- > Water supply
- > Cooling units
- > Engineering
- > Pressure boosting

Miscellaneous

- > Special voltages
- > Special elastomers
- > Special mechanical seals
- > Higher fluid temperatures
