

# Vacuum pump VI-2

These liquid ring vacuum pumps are single-stage pumps with an internal water restraint system. The water-saving and low-noise construction, as well as a low susceptibility to calcification, is some of the benefits. These pumps are applied in small sterilisers and degassing units, among others.

## Details

Connection: 230V, 400V

Flow rate Q in m<sup>3</sup>/h: 2.2

Motor performance in kW (P2): 0,12

Suction pressure in mbar: max. 45
