Vertical centrifugal pump IN-VB 10-40

Vertical, multistage centrifugal pumps from the IN-VB range are non-self-priming high pressure pumps characterized by a high rate of efficiency as well as durability. Wetted parts are made from AISI 304 or AISI 316 L stainless steel. The ? 0.75 kW three-phase motors correspond to the energy efficiency classification IE3.

Details

Connection: 230V, 400V
Flow rate Q in m³/h: max. 13,20
Motor performance in kW (P2): 1,50
Total head H in m WS: max. 44

Field of application

Pressure boosting units

Design

Equipped with ceramic, wear resistant, liquid lubricated bearings. Shaft seal in the form of a mechanical seal. The pump has the CE sign of approval and corresponds to the newest safety regulations.

Miscellaneous

Special voltages
